

ECM – Should I Journey to the Cloud?

***Thursday March 17, 2016
(9:30am – 10:30am AEST)***

The cloud has had a significant impact on what is available in the market today. When it comes to moving to the cloud, Enterprise Content Management is the elephant in the room. Due to concerns with security, data sovereignty and bandwidth, to mention a few, ECM is often one of the last candidates to move.

So should you consider moving or starting your ECM implementation in the cloud or is on premise still the best option for your business. Is Enterprise File Sync and Share (EFSS) part of your strategy and how does your enterprise content management solution fit?

Join Mark Grimes, Managing Director for Blumark Pty Ltd in Brisbane, for this AIIM Australasia virtual meeting to look at ECM and the cloud and how it may impact your organisation.

Location: Via Virtual Member Meeting

Date: Thursday March 17, 2016

Time: 9:30am – 10:30am (AEST)
