

# RIPCORD

## Document Intelligence as a Service™

### Turn your documents into powerful data

/// A **single-source, outcomes-focused solution** designed for your business needs.

Your document types. Your use cases. Your workflows. Your SLAs. The data you need. Integrated into the systems you rely on. All subscription priced and without costly set up fees or human resources-intensive development and implementation.

/// Our technology transforms documents into **accessible, action-ready data**

An end-to-end solution that combines robotic digitization, cloud-native, AI-powered intelligent document processing, human-in-the-loop validation, and content management.

/// Powerful data creates **real business value**

With Ripcord, our customers have unlocked cost savings, operational efficiencies, and business insights while reducing risk.

**Eliminated \$10M+ in write-offs annually**

Our Proof of Delivery solution helped Coca-Cola Bottlers reduce product waste and improve turnaround time for revenue reconciliation by 500%

**Decreased response time from 2+ weeks to 72 hours**

Search and instant cloud access to quality records enabled Inline Plastics to handle customer inquiries in a fraction of the time and made vital records accessible across locations

**Created \$1B in new value**

Rapid digitization and accurate document intelligence decreased analysis time by 87% and enabled identification of a new drilling opportunity
