

ECM Industry Trends Milestones, Capabilities, and Futures

Tuesday June 7th, 2016
3:00 – 4:00pm (Mumbai) / 5:30– 6:30pm (Malaysia)

AIIM India and AIIM South Asia cordially invite you to our joint presentation on Tuesday June 7th, which will cover the current ECM Industry Trends. Our presenter Mr. Dave Jones, VP of AIIM European Operations, based in UK will examine the current capabilities and features of the ECM Industry and how the end user community stands to benefit in terms of declining costs and increased user capability.

Mr. Jones has a unique perspective on the ECM industry, having been actively involved in ECM design and implementation planning since XXXX. He has worked with multiple industries and verticals and positioned ECM solutions to increase user efficiency and service, as well as operational productivity and capability.

Please feel free to register and participate in this event if your schedule allows. The specific registration link is found in the information below.
